

## Spis publikacji

- J. Parafiniuk, **J. Domańska**, 2002. Bismuth minerals from Rędziny (Rudawy Janowickie, SW Poland). *Mineralogia Polonica*, vol.33, nr 2, 3-14.
- **J. Domańska**, R. Siuda, 2003. Native bismuth and secondary bismuth minerals from the Rędziny quarry, Rudawy Janowickie Mts. (Lower Silesia, Poland). *Mineralogia Slovaca*, vol 35, 3-4. *Geo Vestnic*, 5.
- **J. Domańska-Siuda**, 2006. Pochodzenie i ewolucja stopu macierzystego granitu hornblendowo-biotytowego z zachodniej części masywu strzegomskiego. *Przegląd Geologiczny*, vol 55, nr 4, 284.
- **J. Domańska-Siuda** 2007. The granitoid Variscan Strzegom-Sobótka massif. Granitoids in Poland, AM Monograph, nr 1, 179-191.
- E. Słaby , Ch. Breikreuz, J. Żaba, **J. Domańska-Siuda**, K. Falenty, A. Falenty, 2010. Magma generation in an alternating transtensional-transpressional regime, the Kraków-Lubliniec Fault zone, Poland. *Lithos*, vol. 119, 151-268.
- **Domańska-Siuda J.** 2012 – Branneryt z Wołowej Góry i towarzyszące mu minerały uranu (Karkonosze). *Biuletyn PIG* 448. s. 393-400
- Turniak K., Mazur S., **Domańska-Siuda J.**, Szuszkiewicz A. 2014 - SHRIMP U-Pb zircon dating for granitoids from the Strzegom-Sobótka Massif, SW Poland: Constrains on the initial time of Permo-Mezozoic lithosphere thinning beneath Central Europe. *Lithos* 208-209: 415-429
- Kozłowski W., **Domańska-Siuda J.**, Nawrocki J. (2014) – Geochemistry and petrology of the upper Silurian greywackes of the Holy Cross Mountains (Central Poland): Implications for Caledonian history of the southern part of the Trans-European Suture Zone (TESZ). *Geological Quarterly* 58 (2) : 311-336
- Michalski K., Nejbert K., **Domańska-Siuda J.**, Manby G., 2014 - New palaeomagnetic data from metamorphosed carbonates of Western Oscar II Land, Western Spitsbergen. *Polish Polar Research* 35 (4) : 553-592.
- R. Siuda, **J.Domańska-Siuda**, R. Borzęcki, 2016. Saléeite,  $Mg(UO_2)_2(PO_4)_2$ , from the Wojcieszycze uranium deposit (Lower Silesia, Poland). *Annales Societatis Geologorum Poloniae* 86 (2), 211-218
- B. Bagiński B., P. Jokubauskas P., **J. Domańska-Siuda**, P. Katashov, R. MacDonald , 2016. Hydrothermal metasomatism of a peralkaline granite pegmatite, Khaldzan Buragtag massif, Mongolian Altai; Complex evolution of REE-Nb minerals. *Acta Geologica Polonica* 66 (3), 473-491
- M. Burzyński, K. Michalski, K. Nejbert, **J. Domańska-Siuda**, G. Manby, 2017. High-resolution mineralogical and rock magnetic study of ferromagnetic phases in metabasites from Oscar II Land, Western Spitsbergen—towards reliable model linking mineralogical and palaeomagnetic data. *Geophysical Journal International*, 210, 390-405

- K. Michalski, G. Manby, K. Nejbart, **J. Domańska-Siuda**, M. Burzyński, 2017. Using palaeomagnetic and isotopic data to investigate late to post-Caledonian tectonothermal processes within the Western Terrane of Svalbard. *Journal of the Geological Society* 174, 572-590
- Ł. Birski, E. Słaby, **J. Domańska-Siuda**, 2019. Origin and evolution of volatiles in the Central Europe late Variscan granitoids, using the example of the Strzegom-Sobotka Massif, SW Poland. *Mineralogy and Petrology*, DOI: 10.1007/s00710-018-0615-6
- **J. Domańska-Siuda**, B. Bagiński, 2019. Magma mingling textures in granitic rocks of the eastern part of the Strzegom-Sobótka Massif (Polish Sudetes). *Acta Geologica Polonica* vol. 69, no.1, 143-160.
- **J. Domańska-Siuda**, E. Słaby, A. Szuszkiewicz, 2019. Ambiguous isotopic and geochemical signatures resulting from limited melt interactions in a seemingly composite pluton – a case study from the Strzegom-Sobótka Massif (Sudetes, Poland). *International Journal of Earth Sciences* 108, (3), 931-962
- A. Gumsley, G. Manby, **J. Domańska-Siuda**, K. Nejbart, K. Michalski, 2020. Caught between two continents: first identification of the Ediacaran Central Iapetus Magmatic Province in Western Svalbard with implications for final Rodinia breakup. *Precambrian Research* 341:105622; DOI: [10.1016/j.precamres.2020.105622](https://doi.org/10.1016/j.precamres.2020.105622)
